

Bee Happy

LOGFRAME	Project Description	Indicator	Source	Assumptions/Risks
Impact/Goal	Ultimately the goal is to improve <u>the health and wellbeing</u> (SDG 3) of the students at Brunel University of London through re-establishing a long-term collaboration with Pinners and Ruislip Beekeeper's Association (PRBKA) which will allow students to be part of the <u>wider community</u> (SDG 11). Furthermore students will be able to learn the importance of pollinators and can play their part in <u>protecting and restoring our environment</u> (SDG 15).	<ul style="list-style-type: none"> Monitor the change in mental health of the students using the initial control measure - anxiety or depression score - against a final score at the end of the year 	<ul style="list-style-type: none"> Data collected by mental health advisers in weekly meetings 	-
Outcome/ Objective	<ul style="list-style-type: none"> To introduce weekly beekeeping sessions led by PRBKA officers to provide a safe and welcoming environment for students suffering from anxiety and depression To improve the mental health of the students by the end of the year To carry out at least 	<ul style="list-style-type: none"> Monitor the attendance of the students over the year 	<ul style="list-style-type: none"> Data collected by mental health advisers in weekly meetings Information collected by the weekly registers 	<ul style="list-style-type: none"> The only risk of beekeeping is being stung
Output/Results	<ul style="list-style-type: none"> To form a beekeeping society on campus with whilst creating greater connection to the community through the PRBKA and the environment by carrying out this initiative in a greenspace To install 5 hives and collect honey from them at the end of the year, which can then be sold as Brunel produce to students and staff at the weekly market stalls on campus 	<ul style="list-style-type: none"> Ensure the society is fully operating Raising of some funds through the honey sales as well as any fundraising events 	<ul style="list-style-type: none"> Data collected by mental health advisers in weekly meetings Information collected by the weekly registers Through treasurer's responsibilities of 	<ul style="list-style-type: none"> The only risk of beekeeping is being stung
Activities	<ul style="list-style-type: none"> Purchase beekeeping and processing equipment Liaise with student union to promote and reach students Train medical center and mental health advisers on this project x3 Hold sessions on beekeeping weekly as well as seminar sessions Sell labelled jar of honey on campus as Produces by Brunel Recruit student volunteers (planetary health students) Extraction and processing of honey (determined by amount available) Recruit potential staff volunteers (of which 2 have already been mentioned) Carry out initial anxiety score prior to enrolling onto intervention program Focus groups and surveys to be taken of all parties involved in the project 	<ul style="list-style-type: none"> Beekeeping equipment: 3 additional hives, protective bee suit, gloves and hive tools and standard basic hives and smokers. Trainers 	<ul style="list-style-type: none"> Costs of equipment will be covered by the £75 membership per student Two hives already exist at the site 5 minutes away from campus Any additional equipment required for purification of honey will be provided by the PRBKA in the summer 	<ul style="list-style-type: none"> The only risk of beekeeping is being stung

Stakeholder Name	How much does the project impact them?	How much influence do they have over the project?	What is important to the stakeholder?	How could the stakeholder contribute to the project?	Strategy for engaging the stakeholder
Medical Centre	Medium	High	To improve access to healthcare and provide comprehensive primary care	By providing students with a number of health services, as well as counselling for mental wellbeing	Through presenting this initiative and the possible improvement of students' wellbeing through this project
Mental Health Advisers at Brunel	High	High	To provide the comprehensive primary care and ensure the improvement of students' wellbeing	By attending training sessions and acquiring the knowledge required to refer students to this initiative and be able to answer any questions about it	Through the catered training sessions where the advisers can meet PRBKA officers to further understand the project
Student union at Brunel	Medium	Low	To keep students connected and voice the opinions of the overall student population at Brunel University	By advertising beekeeping to students and raising awareness on social prescribing and the importance of mental health	Through the society that this initiative will be, who will be involved in raising awareness of the project
PRBKA	High	High	To help current and future beekeepers as well as promoting public awareness of the necessity, value and benefits of the honeybees	By training students and staff on beekeeping and providing the students with the connections to the community	Through already existing connections and strengthening those through the catered training sessions to increase their involvement
Students seeking help	High	Low	To improve their mental health and wellbeing	By attending the beekeeping sessions and being consistent with attendance	Through the counselling sessions where these students will be referred to this initiative
Brunel University	Medium	Medium	To ensure students acquire a degree to equip them with the knowledge required for employment and ensure the safety and wellbeing of students	By supporting this initiative and providing funding for the continuity of it	Through presenting this initiative and the possible improvement of students' wellbeing through this project

Total		
£ 2,400.00 per annum		
Item	Number of Items	Cost
Membership Cost	£75 for 20 people in total (10 buddies and 10 students)	£ 1,500.00
Catering for Training Session	Fixed budget for 3 training sessions	£ 450.00
Trainers for Training Session	estimated budget for 3 training sessions	£ 450.00
